A town in transition –
Camellia Square begins taking shape at corner of Las Tunas-Rosemead

By Peter Choi

Rising above a major signalized corner in the heart of the San Gabriel Valley with an average household income of $74,378, Camellia Square offers 69,892 square feet of retail and retail, office, and restaurant space. The recent heat wave may have had folks thinking they were seeing a mirage or two, but no, the city is bustling with new commercial and residential development.

On the corner of Las Tunas Drive and Rosemead Boulevard, the outline of the recently renamed Camellia Square shopping center is rising above the city’s main intersection with construction scheduled to be completed by the fourth quarter of this year. For more information, phone Jim Houghton at 626-564-4800, x132 or Suzie Koo at 626-712-9292.

“We’re excited to be getting close to completion of construction,” said Ms. Koo, “The landlord is busy reviewing the many letters of intent we have received which we cannot reveal because they are under negotiation. If anyone is interested in more information about the availability, please contact me directly.”

Meanwhile, along Lower Azusa Road a sparkling complex of LEED certified energy efficient and healthy homes known as Linden Walk, is open for viewing. Inspired by Spanish architectural designs, Linden Walk has completed its first section of homes, with a few already sold. Appointments to view them can be made by phoning Peter Shelton or Lucie Nguyen at 562-370-9504.

Camellia Square contains four buildings ranging from 4,429 square feet to 40,500 square feet.

Chamber Calendar

Oct. 11 - 10 a.m., free seminar: Choosing investments wisely for your 401(k), presented by Morgan Stanley Financial Advisor Gabriel Lynn, Chamber Boardroom, 9050 Las Tunas Drive, Temple City
Oct. 13 - 7 p.m., Board of Directors meeting, Chamber Boardroom

After the recent heat wave, the Fall season brings a welcome change of weather marked by a refreshing drop in temperature and a burst of autumn colors in foliage. It is not too much a change as it is a transition which is an appropriate metaphor for Temple City these days. Like the City itself, the Chamber treasures our past while looking forward to the future.

Having just celebrated our 90th anniversary, I am excited about our new Board of Directors led by Jane Chavez of the Pregnancy Help Center SCV and epitomized by our newest Board member Sean Yee of MedTor, Inc. If you would like to bring your voice and ideas to the Chamber by joining our Board of Directors, please contact me at the Chamber office.

Even in our busy office we recently bid au revoir to the much liked Stefanie Stowers who is pursuing graduate studies in San Francisco and welcome the bright, articulate efficiency of our new Executive Assistant Kristie Bueno who has already made incredible strides in re-organizing our office while filling it with her own positive energy.

Speaking of new energy in our Chamber universe, I would like to welcome our newest member Nestle Waters who now also supplies our drinking water and beverages. As best we can, we utilize our own members for our many office and business needs and so we have transitioned from our former water supplier to Nestle Waters’ Arrowhead line.

The fact that their rates were competitive and their product spring fresh made this change good for our refreshment as well as our pocketbook. And as their water comes in 100% BPA (Bisphenol A) free bottles it makes it good for health as well. The Nestle-Arrowhead family also includes the popular San Pellegrino and Perrier brands so we are feeling refreshed and ready to face new challenges. For more information on our newest member’s services, contact Area Sales Representative Waymond Johnson at 818-402-2314 or e-mail waymonj@nestlewater.com. Tell him you’re a Chamber member or that you heard about it here and he will take good care of you.

Finally, following the success of our 90th Anniversary Annual Awards Gala (A Night at the Gatsby), many of you have asked about our next event.

Board member Judy Huie Mena who did such a bang-up awesome job chairing the Gatsby event has once again taken the reins on producing our Fall/Winter mixer which will take place in December. Stay tuned for more details, but it is never too early to reserve one of our limited sponsorship opportunities. As 2014 transitions to 2015, our goal is to have an event that rocks because that is how we roll.

Gov. Jerry Brown’s signature this month of AB 1839 signifies an important investment in California’s economy. The historic bill by Assembly Members Mike Gatto and Raul Bocanegra, both of Los Angeles, directly impacts California cities by encouraging more film and television production throughout the state.

AB 1839 puts in place policies that strengthen the economy. The Southern California Association of Governments study on the California Film and Television Tax Credit puts in place policies that strengthen the economy. The Southern California Film and Television Tax Credit program found that for each tax credit dollar, total economic activity grows by $19.12; labor income increases by $7.15 and another $1.11 is returned to state and local governments.

Led by a president who has been a member of the Directors Guild of America for more than 30 years, the Temple City Chamber of Commerce has been a strong proponent of the benefits of television and film production to communities and initiated meetings between the city and FilmLA to promote such activity in the city.

During his January 2013 Chamber report to the City Council, Chamber President Peter Choi urged action forward, responding to a question from one City Council member that the Chamber’s interest in this was because it supported economic development.

An article in the city’s CON-NECT magazine (“Making Headlines,” Connect, Winter 2013) highlighted that point in a column on economic development, declaring “Temple City to Become Filming Destination. City, Chamber of Commerce to revamp permit regulations to attract film production.”

As League President and Arroyo Grande Mayor Tony Ferrara said during his remarks supporting this measure, “Economic development is a key priority for California cities and the League appreciates the Governor and Legislature’s commitment to ensuring that one of the state’s cornerstone industries remains strong here. “Local economies benefit when television and film production locate in our communities, create jobs and support local businesses.”

Certainly, our beautiful city is ready for its close up, Mr. DeMille. City Council member Cynthia Sternquist contributed to this article.

Six fairly secret ways to keep your mouth healthy and your smile drop-dead gorgeous — really

So here’s the thing: there are some obvious hygiene approaches that even most guys understand and, on a good day, can even carry out if the bar doesn’t get set too high. But then again, there are other more subtle measures that you might already know if you’re a woman and that’s why I’m calling them “almost secret.” If you’re a guy, you might even think I’m making this stuff up — but I’m not.

So here are six fairly secret dental hygiene insights, believe it or not:

1. And finally ... please take 20 minutes can help stimulate the flow of saliva and help de-rail the tooth decay process. Careful if you have any TMJ concerns.
2. Please take vitamin C: Another believe it or not - 1,000 mg of vitamin C per day helps manage bacterial bad guys involved in periodontal disease. Plus, who wants scurvy?
3. Brush to a song: Turn on your I-pod and bust some moves while you brush to the length of a song (unless it’s Bolton).
4. Chew sugarless gum: But not all day long. Chewing for 20 minutes can help stimulate the flow of saliva and help de-rail the tooth decay process. Careful if you have any TMJ concerns.
5. Brush your tongue: So it doesn’t sound sexy but bacteria accumulate like crazy on the top of your tongue, which up close and personal, looks sort of like a shag carpet.
6. Floss first (please): It’s great eating protein with vegetables but remember to floss out spinach between your teeth; then brush it all away with your tooth brush.

That’s it for this month. Fight on.

The Temple City Blue Star Banner Program would like to salute a local veteran who passed away recently, Louis Paletta, a great supporter of the Blue Star Program who showed up at every dinner he could attend in uniform. A World War II veteran, he was born Aug. 15, 1927 and passed away on July 2. His cheerful and patriotic presence will be missed. In the photo above, at the Blue Star dinner gathering, in June of 2016, the speaker’s marine Sgt. George Garcia recognized former Army Sgt. Paletta.

American Legion Post No. 247 in Arcadia held a candlelight vigil in honor of local first responders and day of remembrance and service to pay tribute to those who served and continue to serve the country and in communities. They honored all those who answer the call and remember all who have sacrificed.

Scott Sinclair, master of ceremonies, reflected on lives lost and recognized the strength and courage of the actions of the fire department, police and emergency medical technicians everyday. He then lit the candle of courage.

Ed Barlow, commander of the American Legion of Arcadia, remembered “American flags flew from every window and every telephone pole.” He was very proud of “the way the country got back on track and remember all who have sacrificed.

Father Bill Adams, CSA, will celebrate a charismatic mass with healing service at Father Bill is past president of Southern California Renewal Communities. He is respected for his Scripture teachings, and his frequent speaking at workshops and conferences.

Everyone is welcome. There will be ample parking, with disabled facilities available.

Living trust more affordable and less time-consuming than probate

I always like to ensure that my clients understand the following benefits of having a trust versus going through probate court to transfer a deceased person’s assets. In my opinion, there are three main benefits:

Cost:
A typical trust package drafted by an attorney costs around $2,000. Although this is not a small amount of money, $2,000 is a lot less than probate fees. Probate: Attorneys’ fees in probate court are set by statute, which simply means that the fees are set by the California legislature and are not as negotiable as ordinary attorneys’ fees. For example, as we know in the San Gabriel Valley, property values have risen significantly in the past few years. As a result, if a person in Temple City passes away without a trust, if your son is your heir at law, he will receive your estate to an irresponsible which assets and when. For example, if your daughter when she turns 30.

Probate:
If a person in Temple City passes away without a trust, your son is your heir at law, he will receive your estate to an irresponsible which assets and when. For example, if your daughter when she turns 30.

Probate:
If a person in Temple City passes away without a trust, your son is your heir at law, he will receive your estate to an irresponsible which assets and when. For example, if your daughter when she turns 30.

Band holds waterless car for Rose Parade quest

The Temple City High School POTC (Pride of Temple City) band and auxiliaries offered a “waterless” car wash, Sept. 20, at the TCHS Teachers’ Parking Lot, 9501 Lemon Ave., Temple City. Because of the severe drought, TCHS performed a waterless car wash by cleaning windows and vacuuming cars. The car wash was free, but students took pledges based on the number of cars washed. This was the POTC’s largest fundraiser and was especially needed this year with the band and auxiliaries marching in the 2015 Pasadena Tournament of Roses Parade. For more information about TCHS, phone 626-548-5042.
